

EIA <https://www.eia.gov/>

US Energy Information Administration

The statistical and analytical agency within the Dept of Energy. By law their data, analyses, and forecasts are independent of approval by any officer or employee of the US government.

CEEM <https://www.cleanenergyeconomymn.org/>

Clean Energy Economy MN

An industry-led, nonprofit organization that promotes the business case for energy efficiency and clean energy to drive innovation and expand market opportunities in the state of Minnesota.

CUB <https://cubminnesota.org/>

Citizens Utility Board

The Citizens Utility Board of Minnesota (CUB) is a nonprofit advocate for our state's utility consumers. They champion affordable, reliable, safe, and clean home energy for all Minnesotans. CUB aims to be a voice for Minnesotans before utility regulators and the state legislature.

ASE <https://www.ase.org/>

Alliance to Save Energy

A bipartisan, nonprofit coalition of business, government, environmental, and consumer groups based in Washington, D.C. The Alliance states that it advocates for "energy-efficiency policies that minimize costs to society and individual consumers, and that lessen greenhouse gas emissions and their impact on the global climate." The Alliance's chief activities include public relations, research, and lobbying to change U.S. energy policy.

CEE <https://www.mncee.org/>

Center for Energy and Environment

Center for Energy and Environment (CEE) provides tailored, research-driven energy solutions that help homes, businesses, and communities become more efficient, sustainable, and equitable. Their mission is to deliver effective energy solutions that strengthen the economy and protect the environment. With expertise in engineering, research, and finance, we design programs tailored to each partner's needs. We collaborate closely with utilities, cities, nonprofits, and businesses to drive real impact. Our goal is to have a more equitable, energy efficient future for everyone.
